**Outdoor Learning and Play**

Liv Torunn Grindheim 2021-07-20 This Open Access book examines children’s participation in dialectical reciprocity with place-based institutional practices by presenting empirical research from Australia, Brazil, China, Poland, Norway and Wales. Underpinned by cultural-historical theory, the analysis reveals how outdoors and nature form unique conditions for children’s play, formal and informal learning and cultural formation. The analysis also surfaces how inequalities exist in societies and communities, which often limit and constrain families’ and children’s access to and participation in outdoor spaces and nature. The findings highlight how institutional practices are shaped by pedagogical content, teachers’ training, institutional regulations and societal perceptions of nature, children and suitable, sustainable education for young children. Due to crises, such as climate change and the recent pandemic, specific focus on the outdoors and nature in cultural formation is timely for the cultural-historical theoretical tradition. In doing so, the book provides empirical and theoretical support for policy makers, researchers, educators and families to enhance, increase and sustain outdoor and nature education.

**Seacrow Island**

Astrid Lindgren 2016-04-07 The day the Melkerson family arrive on Seacrow Island, it’s a bit of a shock to their system. It’s so quiet there—none of the shops and bustle they’re used to. And the cottage they’ve rented for the summer is a little bit well ... basic. But what Seacrow Island does have is woods to wander in, fish to
catch, boats to sail in, and all kinds of animals. And before long they find it has even more important things, too—adventure, fun, exploration, friends. Perhaps it’s going to be leaving that’s the really hard thing?

Northern Arts
Arnold Weinstein 2021-12-07 Northern Arts is a magnificent and provocative exploration of Scandinavian literature and art. With intellectual power and deep emotional insights, writer and critic Arnold Weinstein guides us through the most startling works created by the writers and artists of Scandinavia over the past two centuries. Here readers will gain new perspectives on canonical giants such as Søren Kierkegaard, Henrik Ibsen, August Strindberg, Edvard Munch, Knut Hamsun, and Ingmar Bergman. Readers will also encounter popular favorites like children’s writer Astrid Lindgren, and come to know the work of lesser-known masters such as the novelists Tarjei Vesaas and the painters Ernst Josephson and Lena Cronqvist. Weinstein uses the concept of “breakthrough”—boundary smashing, restlessness, and the exploding of traditional forms and values—as a thematic lens through which to expose the roiling energies and violence that course through Scandinavian literature and art. Defying preconceptions of Scandinavian culture as depressive or brooding, Weinstein invites us to imagine anew this transformative and innovative tradition of art that continually challenges ideas about the sacred and the profane, family and marriage, children, patriarchy, and personal identity. Through these works he brings us face-to-face with our most hidden selves and urges, enriching our understanding of the emotions and forces that govern our lives. Northern Arts is the essential introduction to Scandinavian literature and art, one that illuminates the fierce beauty and breathtaking reach of these incomparable works.

Starlight Barking
Dodie Smith 2015-06-23 Dodie Smith’s The Hundred and One Dalmatians, later adapted by Disney, was declared a classic when first published in 1956. The Starlight Barking, Dodie’s own long-forgotten sequel, is a thrilling new adventure for Pongo and his family, lavishly illustrated by the same artist team as the first book. As the story opens, every living creature except dogs is gripped by an enchanted sleep. One of the original Dalmatian puppies, all grown up since the first novel, is now the Prime Minister’s mascot. Relying on her spotted parents for guidance, she assumes emergency leadership for the canine population of England. Awaiting advice from Sirius, the Dog Star, dogs of every breed crowd Trafalgar Square to watch the evening skies. The message they receive is a disturbing proposition, one that might forever destroy their status as “man’s best friend.”

Matilda Bone
Karen Cushman 2000-10-16 Into the fascinating, pungent setting of Blood and Bone Alley, home of leech, barber-surgeon, and apothecary, comes Matilda, raised by a priest to disdain worldly affairs and focus on spiritual matters. To Matilda’s dismay, her work will not involve Latin or writing, but practical tasks: lighting the fire, going to market, mixing plasters and poultices, and helping Peg treat patients. She is appalled by the worldliness of her new surroundings, and the sharp-tongued saints she turns to for advice are no help at all. Filled with the witty dialogue and richly authentic detail that Karen Cushman’s work is known for, Matilda Bone is a compelling comic novel about a girl who learns to see herself and others clearly, to laugh, and to live contentedly in this world. Author’s note.

Other Men’s Daughters
Richard Stern 2014-12-16 “A beautifully written novel that should be read by everyone who cares about the human condition.” —The Philadelphia Inquirer
Harvard physiologist Robert Merriwether has four whip-smart children, an attractive and intelligent wife, and a successful, stimulating career. True, he and Sarah have not slept together in years, and when he decides to stay behind in Cambridge for the summer while the rest of the family vacations in Maine, his newfound freedom is deeply unsettling. But that does not mean that Merriwether wants to change his life or feels unloved. To a man of science, desire is nothing more than a biological reaction. And Merriwether’s personal philosophy is that once you’re in your forties, real love is nothing but lust and nostalgia. Then Cynthia Ryder walks into his life. Twenty years old, she is beautiful, intelligent, witty, and kind. And, to Merriwether’s great surprise, she wants to be with him. Initially, he evades her advances, sure that hers is just a passing fancy. But as he gets to know her better, Merriwether realizes that Cynthia is more mature than he first suspected and that the joy he feels when they are together has been missing from his life for a long, long time. When the summer ends and their need for each other does not fade, Merriwether realizes that he is being given a chance at true love. The question is, will he be brave enough to take it? Considered by many critics to be Richard Stern’s finest novel, Other Men’s Daughters is a tender, honest, witty, and life-affirming portrait of a love as transcendent as it is unlikely.

Ranji the Music Maker

Ruskin Bond 2018-05-21 Was this what it was like to be a rock star? Except that pop singers were usually followed by people, not cats.’ In the middle of his languid holiday, idle young Ranji stumbles upon assorted musical instruments in the storeroom—first a shrill flute, then a blaring little trumpet and, finally, a too-big drum that may have once sounded a battle march. He stages impromptu concerts down the road, not sparing his neighbours, nor the cats around his porch, nor the peace-loving inhabitants of the zoo! But all Ranji’s really seeking is a friend who’ll hear the magic in his din. A lyrical and stunningly illustrated offering from India’s favourite teller of tales, this is a sunny story about forging bonds and the simple joys of life.

**Dickens and the Stenographic Mind**

Hugo Bowles 2019-01-10

Initially described by Dickens as a ‘savage stenographic mystery’, shorthand was to become an essential and influential part of his toolkit as a writer. In this ground-breaking interdisciplinary study, Hugo Bowles tells the story of Dickens’s stenographic journey from his early encounters with the ‘despotic’ shorthand symbols of Gurney’s Brachygraphy in 1828 to his lifelong commitment to shorthand for reporting, letter writing, copying, and note-taking. Drawing on empirical evidence from Dickens’s shorthand notebooks, Dickens and the Stenographic Mind forensically explores Dickens’s unique ability to write in two graphic codes, offering an original critique of the impact of shorthand on Dickens’s mental processing of language. The author uses insights from morphology, phonetics, and the psychology of reading to show how Dickens’s bисcriptal habits created a unique stenographic mindset that was then translated into novel forms of creative writing. The volume argues that these new scriptal arrangements, which include phonetic speech, stenographic patterns of letters in individual words, phonaesthemes, and literary representations of shorthand-related acts of reading and writing, created reading puzzles that bound Dickens and his readers together in a new form of stenographic literacy. Clearly written and cogently argued, Dickens and the Stenographic Mind not only opens up new evidence from a little known...
area of Dickens’s professional life to expert scrutiny, but is highly relevant to a number of important debates in Victorian studies including orality and literacy in the nineteenth century, the role of voice and voicing in Dickens’s writing process, his relationship with his readers, and his various writing personae as law reporter, sketch-writer, journalist, and novelist.

Virtual Sites as Learning Spaces
Sangeeta Bagga-Gupta 2019-11-25 This volume fills a gap in the literature between the domains of Communication Studies and Educational Sciences across physical-virtual spaces as they intersect in the 21st century. The chapters focus on “languaging” - communicative practices in the making - and its intersection with analogue and virtual learning spaces, bringing together studies that highlight the constant movement between analogue-virtual dimensions that continuously re-shape participants’ identity positionings. Languaging is understood as the deployment of one or more than one language variety, modality, embodiment, etc in human meaning-making across spaces. Languaging activities are explored through a multitude of literary artefacts, genres, media, and modes produced in and across sites. The authors go beyond “best practice” approaches and instead present “how-to-explore” communicative practices for researchers, learners and teachers. This book will be of interest to readers situated in the areas of literacy, literature, bi/multilingualism, multimodality, linguistic anthropology, applied linguistics, and related fields. Chapters 2, 5, 8 and 12 are open access under a CC BY 4.0 license at link.springer.com.
